The AbilityOne Program has been providing vital food services to America's Armed Forces and federal government workers for over three decades. Our first full food service contract was initiated in 1980 at Sheppard Air Force Base, TX and is still being performed today.

Our leadership in the commercial food service industry combined with our experience and knowledge of federal practices and requirements make AbilityOne the smart choice for our government and military customers. We currently serve 25 million meals a year and perform all full food-related services including:

- Federal and DoD administrative accounting
- Contingency (full food) support as needed
- Quality assurance management
- Budgetary support
- Performance work statement drafting
- Full open partnering
- Dining hall customer support
- Emergency and major inspection/exercise support
- Kitchen and dining facility sanitation
- Inventory management (order, receive, rotate)
- Equipment maintenance (minor and major)
- Flight kitchen, box lunch and ground meal support
- Catering, event planning and implementation

At AbilityOne, we pride ourselves on a high level of commitment to quality and quality control by supporting industry best practices and investing in experienced quality professionals. Within our 2,800 existing contracts and 572 national nonprofit agencies (NPAs) you will find an array of quality programs and certifications in place including ISO 9001-2000, Six Sigma, Lean Six Sigma, Kaizen and Malcolm Baldrige.

"We have contracts that provide food service to all of our military that eat in our dining facilities. Each and every soldier and family member is in some way affected, touched or their life has improved because of the contracts that we have with Ability One."

Barry Barnett, Director of Contracting,
Ft. Hood Army Base, TX

COMMITTED TO QUALITY

AbilityOne and our NPAs have a commitment to training and development for people with severe disabilities. Each NPA has a background in development and implementation of comprehensive training programs for their workforce which helps to ensure that each employee is prepared for their role on your contract. Finally, AbilityOne can offer recommendations for process improvement to help drive operational efficiency and improved performance on your contract.
